MOBILE PRODUCT (MICROSITE BUILDER FOR SIDE HUSTLES)

Bizi App: Create and Share Personalized Microsites on Google Play

A detailed case study on the Bizi Play Store app (package io.isbizi.bizi) by Bizi Software LLC. The listing states that side hustlers and small-business owners can create personalized microsites with CTAs, images, and contact details, then share via links, social, or QR codes. It names unlimited microsites and a bio link feature. Listing updated 13 Mar 2026 at capture.

PRODUCT

Bizi on Google Play (io.isbizi.bizi). Developer Bizi Software LLC.

MARKET

Side hustlers, solopreneurs, and small-business owners promoting services

STATUS

Live on Google Play; in-app purchases noted on listing

THE STORY IN ONE MINUTE

Side hustles stall when promotion still means a slow custom website project

Bizi's Play Store page positions the app as a fast way to build focused landing pages for services, products, or personal brand. Named jobs include microsite creation, CTA buttons, images, contact details, sharing via link/social/QR, unlimited microsites, and a bio link feature. Support contacts include support@getbizi.io and a US phone number.

EVIDENCE BOUNDARY

Microsite features, IAP badge, Teen rating, and data-safety statements come from the Play Store page. Conversion rates and GMV are not published here.

CLASSIFICATION

Category: Flutter-oriented martech microsite mobile application

Audiences: Side hustlers, SMB owners, and martech product buyers

Core promise: Build and share promotional microsites from a phone without waiting on a full website build

Live link: https://play.google.com/store/apps/details?id=io.isbizi.bizi

MARKET PROBLEM

Promotion Fails When the Only Option Is a Heavy Website Project

Side hustlers need fast landing pages and shareable links. The listing frames Bizi as that lightweight path.

WHERE MICROSITE APPS FAIL

01
Website delay
Custom sites take too long for hustles.

02
Weak CTAs
Pages without clear next actions.

03
Hard sharing
No QR or bio-link path.

04
Desktop-only builders
Creators work from phones.

05
Cluttered builders
Too many options kill speed.

06
Unclear monetization
IAP surprises without clarity.

THE BIZI PROMOTE LOOP

01	02	03	04	05	06
Create	**Brand**	**CTA**	**Share**	**Engage**	**Iterate**
Microsite	Images / copy	Contact actions	Link / QR	Audience hits	New pages

PRODUCT PRINCIPLE

Optimize for minutes-to-first-microsite, and keep IAP scope honest on demos.

THE BUSINESS CHALLENGE

Make Building Fast Without Turning the App Into a Full CMS

Creators need speed and shareability. Buyers need clarity on what unlimited microsites and bio links include versus paid unlocks.

SIX PRODUCT CHALLENGES

01
Fast builder UX
Pages in minutes.

02
CTA clarity
Calls, links, contacts.

03
Share surfaces
Link, social, QR.

04
Bio link feature
Single hub for profiles.

05
IAP honesty
What is free vs paid.

06
Store compliance
Teen rating and data safety.

TWO AUDIENCES

CREATORS
Promote fast
Want microsites, CTAs, and QR sharing on Android.

MARTECH BUYERS
Evaluate delivery
Want a live Play listing with named builder jobs.

COMMERCIAL MODEL

The listing shows in-app purchases. Exact SKU prices are not asserted here; confirm on device at demo time. Developer: Bizi Software LLC, Sheridan, WY contacts on listing.

THE PLATFORM SOLUTION

A Play Store Microsite Builder for Side Hustles

Store copy defines builder jobs. Portfolio mapping for related Mediusware work cites Flutter/Dart delivery patterns.

WHAT THE EVIDENCE SHOWS

Count Builder Jobs Named on Play, Separate Conversion Myths

The listing is concrete on microsites, CTAs, sharing, and bio link. Lead conversion rates are not published.

ELEMENTS COUNTED IN THE PUBLIC SOURCES

6	1	1	3	4	1
Named builder jobs	Package	IAP badge	Support channels	Data-safety themes	Parent LLC

OBSERVATIONS

- Play About text is the feature inventory for demos.
- Data-safety form mentions third-party sharing of some data types and encryption in transit. Reconcile before security claims.
- Flutter stack claims are portfolio-mapped unless confirmed in the live binary.
- Do not invent lead-gen conversion percentages from this pack.

DESIGN PRINCIPLE

Create one microsite with a CTA and share it via link or QR on a real device.

TECHNOLOGY AND ARCHITECTURE

Mobile Delivery Behind a Microsite Builder Listing

Play does not publish the stack. Portfolio mapping cites Flutter, Dart, and Firebase patterns for related martech companions.

ARCHITECTURE AS STATED OR IMPLIED

01
Android client
Play package io.isbizi.bizi.

02
Builder UI
Page compose and preview.

03
Asset handling
Images and media.

04
Share services
Links and QR generation.

05
IAP hooks
Paid unlocks as configured.

06
Backend APIs
Microsite hosting/publish.

METHODS AND TOOLS NAMED

Flutter | Dart | Firebase | Play Billing | QR generation | Play Store

CLAIM BOUNDARY

Confirm live stack, hosting model, and IAP catalog before commercial proposals.

REPORTED RESULTS AND INTENDED VALUE

Intended Faster Promotion, Unmeasured Lead Volume

Public sources support faster microsite creation. They do not publish lead or sale counts.

INTENDED VALUE, PER THE EVIDENCE

01
Faster pages
Microsites in minutes.

02
Clear CTAs
Contact and action buttons.

03
Easy sharing
Link, social, QR.

04
Many pages
Unlimited microsites named.

05
Bio hub
Bio link feature named.

06
Store distribution
Android install path.

USAGE SCENARIOS IMPLIED

- A side hustler builds a service microsite with a call CTA and shares a QR at an event.
- A creator uses bio link as a single hub across social profiles.
- A sales call opens the live Play listing and demos one page publish.

CLAIM BOUNDARY

Do not publish lead volume or revenue from this pack.

MEDIUSWARE CONTRIBUTION AND DELIVERY EVIDENCE

VERIFICATION AND COMPLIANCE

Verify Builder and Share Paths Before Martech Claims

Demos should publish a real page and show share outputs.

PRE-PUBLICATION VERIFICATION

01
Install listing
io.isbizi.bizi from Play.

02
Create microsite
CTA + image + contact.

03
Share test
Link and QR.

04
Review IAP
What is locked vs free.

05
Data safety
Reconcile store form.

06
Authorship file
Confirm demo rights.

MEASURES WORTH PUBLISHING

- Median minutes to first published microsite
- Share actions per created page
- Crash-free sessions on current release
- IAP conversion on demo funnel (if authorized)

GOVERNANCE PRIORITY

Publish growth claims only after analytics access and written permission.

MEDIUSWARE

Build Martech Clients That Publish in Minutes

Bizi App shows how a live Play listing with named microsite jobs beats generic landing-page mockups.

WHAT THE PROJECT DEMONSTRATES

01
Ship a real listing
Installable Android proof.

02
Name builder jobs
Create, CTA, share.

03
