MOBILE PRODUCT (AUTOMOTIVE ECOMMERCE)

Carbuy App: Vehicle Listings and Seller Contact on Google Play

A detailed case study on the CarBuy Google Play listing (package lv.carbuy.mobile). The About text states shoppers can browse and manage vehicle listings like carbuy.lv, add or update listings with photos, use website-equivalent filters (make, model, price, year, mileage, engine, gearbox), and contact sellers by call, email, or WhatsApp. What's new at capture names quick catalog search, filter chips, recently viewed cars, redesigned car page with leasing display, Waze/Google Maps navigation, and sticky contact bar. Listing updated 30 Oct 2026.

PRODUCT	MARKET	STATUS
CarBuy on Google Play (lv.carbuy.mobile). Companion to carbuy.lv.	Latvian and regional vehicle shoppers and sellers	Live on Google Play; companion to carbuy.lv web marketplace

THE STORY IN ONE MINUTE

Car shopping is already mobile; the listing has to keep filters, photos, and seller contact in one pocket client

CarBuy's Play Store page positions the Android app as carbuy.lv in your pocket. Sellers log in, add or update listings, and upload photos. Buyers browse with the same filter set as the website and contact sellers via call, email, or WhatsApp. Recent release notes emphasize search chips, recently viewed cars, clearer price/leasing, maps navigation, and a sticky contact bar.

EVIDENCE BOUNDARY

Feature inventory and release-note items come from the Play Store page. Dealership conversion rates and GMV are not published here. Support phone +37124244000 and info@carbuy.lv appear on the listing.

CLASSIFICATION

Category:	Automotive marketplace ecommerce mobile application
Audiences:	Vehicle buyers, private sellers, and automotive marketplace operators
Core promise:	Browse, list, and contact around vehicles on Android with parity to carbuy.lv filters and seller actions
Live link:	https://play.google.com/store/apps/details?id=lv.carbuy.mobile&hl;=en

MARKET PROBLEM

Vehicle Marketplaces Fail When Mobile Loses Filters and Seller Contact

Car buyers research on phones. If filters, photos, and WhatsApp contact are weaker than the website, they bounce back to desktop or competitors.

WHERE AUTO MARKETPLACE APPS FAIL

01
Filter loss
Mobile drops make/model/year depth.

02
Weak seller tools
Listing updates need a desktop.

03
Photo friction
Uploads are painful on phone.

04
Contact scatter
Call, email, WhatsApp are hard to find.

05
Map gaps
Buyers cannot navigate to the car.

06
Metric invention
Fake sales conversion claims.

THE CARBUY MARKETPLACE LOOP

01	02	03	04	05	06
Browse	**Open**	**Contact**	**Navigate**	**Sell**	**Manage**
Filters	Car page	Call/WA/email	Maps	List + photos	Update listing

PRODUCT PRINCIPLE

Prove website-parity filters and one seller or buyer contact path on device before talking conversion.

THE BUSINESS CHALLENGE

Keep Marketplace Depth on a Phone Without Pretending Every Sale Closes In-App

Buyers need filters and contact. Sellers need listing and photo tools. The app can enable the marketplace without claiming every deal closes inside checkout.

SIX PRODUCT CHALLENGES

01
Filter parity
Make, model, price, year, mileage, engine, gearbox.

02
Listing management
Add/update with photos.

03
Contact bar
Call, email, WhatsApp sticky access.

04
Maps handoff
Waze / Google Maps navigation.

05
Performance
Catalog scroll and image load.

06
Claim discipline
No invented close rates.

TWO AUDIENCES

BUYERS
Find and contact
Want filters, car detail, maps, and seller contact on Android.

SELLERS / OPS
List and manage
Want mobile listing updates with photos tied to carbuy.lv.

COMMERCIAL MODEL

The listing presents a free-distributed marketplace client for CarBuy (Latvia contacts on page). Transaction fees for carbuy.lv are not detailed on the app listing and are not claimed here.

THE PLATFORM SOLUTION

A Play Store Marketplace Client Wired to carbuy.lv

Store About text and What's new define buyer and seller jobs. Portfolio mapping cites React Native / TypeScript patterns for automotive ecommerce mobile.

THE CORE FLOW

01	02	03	04	05	06
Install	**Search**	**Open car**	**Contact**	**Navigate**	**Sell**
Play Store	Filters / VIN	Detail page	Call/WA/email	Maps	List with photos

CAPABILITIES NAMED IN THE EVIDENCE

01
Catalog browse
Same filters as website (Play Store).

02
Listing management
Add/update with photos (Play Store).

03
Seller contact
Call, email, WhatsApp (Play Store).

04
Search chips
Make/model/plate/VIN search (What's new).

05
Maps navigation
Waze / Google Maps (What's new).

06
Sticky contact bar
Persistent seller actions (What's new).

FACTS AT CAPTURE

1	7+	3	30 Oct 2026
Package lv.carbuy.mobile	Filter dimensions named	Contact channels named	Listing updated

WHAT THE EVIDENCE SHOWS

Count Marketplace Jobs Named on Play, Separate Unearned Close Rates

The listing and release notes are concrete on browse, list, contact, and maps. Sales conversion is not published.

ELEMENTS COUNTED IN THE PUBLIC SOURCES

7+	3	4	1	carbuy.lv	0
Filter dimensions	Contact channels	Release themes	Package	Parent web	Sales KPIs

OBSERVATIONS

- Play About text is the buyer/seller job inventory for demos.
- What's new items (search chips, recently viewed, leasing display, maps, sticky contact) are strong walkthrough cues.
- Data-safety form mentions third-party sharing and encryption in transit. Reconcile before security claims.
- Do not invent dealership conversion or GMV from this pack.

DESIGN PRINCIPLE

Filter to one car, open the redesigned detail page, and tap a sticky contact or maps action on device.

TECHNOLOGY AND ARCHITECTURE

Mobile Delivery Behind an Automotive Marketplace Listing

Play does not publish the stack. Portfolio mapping cites React Native, TypeScript, Firebase, and Redux for automotive ecommerce mobile.

ARCHITECTURE AS STATED OR IMPLIED

01
Android client
Play package lv.carbuy.mobile.

02
Catalog APIs
Filters and vehicle detail.

03
Seller APIs
Listing create/update and photos.

04
Contact intents
Phone, email, WhatsApp.

05
Maps handoff
Waze / Google Maps deep links.

06
Web parity
Alignment with carbuy.lv.

METHODS AND TOOLS NAMED

React Native | TypeScript | Firebase | Redux | Play Store | Maps intents | WhatsApp intents

CLAIM BOUNDARY

Confirm live stack, listing moderation rules, and photo upload limits before marketplace architecture RFPs.

REPORTED RESULTS AND INTENDED VALUE

Intended Faster Car Discovery, Unmeasured Close Rate

Public sources support richer mobile browse and contact. They do not publish sales conversion.

INTENDED VALUE, PER THE EVIDENCE

01
Pocket marketplace
carbuy.lv parity on Android.

02
Filter depth
Make through gearbox named.

03
Seller mobility
List and photo on phone.

04
Faster contact
Call, email, WhatsApp.

05
Navigation help
Maps to the vehicle.

06
Store distribution
Play install path.

USAGE SCENARIOS IMPLIED

- A buyer filters by make and year, opens a car page, and WhatsApps the seller from the sticky bar.
- A seller updates a listing and uploads photos without returning to desktop.
- A sales call opens the live Play listing and walks search chips plus maps navigation.

CLAIM BOUNDARY

Do not publish close rate, GMV, or lead volume from this pack.

MEDIUSWARE CONTRIBUTION AND DELIVERY EVIDENCE

Surfaces Behind an Automotive Marketplace Listing

Mediusware can present the live listing and portfolio patterns. Authorship needs a scope file.

SURFACES TO ATTRIBUTE

01
Catalog UX
Search, filters, chips.

02
Car detail
Price, leasing, media.

03
Contact bar
Call, email, WhatsApp.

04
Seller tools
List/update + photos.

05
Maps handoff
Waze / Google Maps.

06
Store release
Play packaging.

DEFENSIBLE PUBLIC PROOF

Play About

PROOF
1
Package
lv.carbuy.mobile

PROOF
1
Update date
30 Oct 2026

CONTRIBUTION BOUNDARY

Live listing is public. Staffing and IP are not on the Play Store page.

VERIFICATION AND COMPLIANCE

Verify Browse, List, and Contact Before Automotive Claims

Marketplace demos should show filters, a car page, and at least one contact intent.

PRE-PUBLICATION VERIFICATION

01
Install listing
lv.carbuy.mobile from Play.

02
Apply filters
Make/model/year path.

03
Open car page
Price/leasing and media.

04
Contact intent
Call, email, or WhatsApp.

05
Maps handoff
Waze or Google Maps.

06
Authorship file
Confirm demo rights.

MEASURES WORTH PUBLISHING

- Time from install to first car detail
- Filter chip usage in demo sessions
- Contact intent tap-through rate
- Crash-free sessions on current Play release

GOVERNANCE PRIORITY

Publish sales claims only after analytics access and written permission.

MEDIUSWARE

Build Automotive Marketplace Clients That Keep Website Depth on a Phone

Carbuy App shows how a live Play listing with filter parity, seller tools, and sticky contact beats thin auto-app mockups.

WHAT THE PROJECT DEMONSTRATES

01
Ship a real listing
Installable Android proof.

02
Filter parity
Website-depth browse.

03
Seller mobility
List and photos.

04
Contact clarity
Call, email, WhatsApp.

05
Maps handoff
Navigate to the car.

06
Bound metrics
No fake close rates.

07
Verify on device
Filter to contact.

08
Parent clarity
Companion to carbuy.lv.
