MOBILE PRODUCT (FLUTTER COMPANION FOR BIZI)

Bizi App: Flutter Client on Google Play

A Flutter mobile app on Google Play that extends the Bizi product into a phone-first client for users who need the product away from the desktop web experience.

PRODUCT	MARKET	STATUS
Bizi (Play Store listing)	Bizi product users and Martech-oriented teams	Live on Google Play; paired with Bizi web product

THE STORY IN ONE MINUTE

Flutter delivery for Bizi's mobile users

Bizi App is the Play Store listing for the Bizi mobile client. Portfolio notes frame it as a Flutter build with store distribution, sitting beside the Bizi web product rather than replacing it.

EVIDENCE BOUNDARY

Evidence is the Play Store listing and Bizi product pairing. Conversion metrics are not published here.

CLASSIFICATION

Category: Flutter companion mobile application

Audiences: Product teams evaluating Flutter store delivery for Bizi

Core promise: A live Android client for the Bizi product

Live link: https://play.google.com/store/apps/details?id=io.isbizi.bizi

MARKET PROBLEM

Why teams need Bizi App

The problems below are read from the product shape of Bizi App and the live store or repository evidence.

WHERE THE MOBILE EXPERIENCE BREAKS

01
Mobile gap
Web-only products lose field users.

02
One codebase
Teams want Flutter efficiency.

03
Store proof
Buyers ask for Play links.

04
Parity risk
Mobile must not drift from web.

05
Release ops
Android packaging and signing.

06
Support
Crash and feedback loops.

PRODUCT PRINCIPLE

Ship a store-listed mobile client that matches the parent product's jobs, with claims limited to what the live listing can support.

THE BUSINESS CHALLENGE

Deliver Bizi App as a reliable store product

SIX PRODUCT CHALLENGES

01
Flutter UX
Material patterns that fit Bizi.

02
API alignment
Same backends as web.

03
Auth continuity
Shared sessions or tokens.

04
Performance
Snappy lists and forms.

05
Store listing
Clear screenshots and copy.

06
Evidence care
No invented usage stats.

COMMERCIAL MODEL

Mediusware delivers mobile engineering for client products, from discovery and UX through store submission and ongoing releases. Pricing depends on scope and is confirmed per engagement.

THE PLATFORM SOLUTION

A store-published mobile client for Bizi App

SIX CAPABILITIES

01
Play Store listing
Public Android app.

02
Flutter client
Dart/Flutter delivery.

03
Product pairing
Beside Bizi web.

04
Mobile workflows
Phone-first actions.

05
Firebase hooks
Common mobile services.

06
Demo link
Live store URL for sales.

LIVE ARTIFACT

https://play.google.com/store/apps/details?id=io.isbizi.bizi

WHAT THE EVIDENCE SHOWS

Counting the public proof, and the claims to keep bounded

OBSERVATIONS

Evidence is the Play Store listing and Bizi product pairing. Conversion metrics are not published here. Design principle: report only store-visible or repository-visible facts unless a metric is separately verified.

Public live link	Google Play Bizi listing.
Stack stated	Flutter, Dart, Firebase.
Parent product	Bizi web remains separate.
Delivery shape	Flutter store companion.

TECHNOLOGY AND ARCHITECTURE

Stack stated for Bizi App

METHODS AND TOOLS NAMED

- Flutter
- Dart
- Firebase
- Play Store distribution

CLAIM BOUNDARY

These are stated stack choices for delivery and demo mapping. They are not an exhaustive bill of materials for every private submodule.

REPORTED RESULTS AND INTENDED VALUE

What can be shown publicly today

01
Public live link
Google Play Bizi listing.

02
Stack stated
Flutter, Dart, Firebase.

03
Parent product
Bizi web remains separate.

04
Delivery shape
Flutter store companion.

05
Intended value
Faster demos with a real installable client.

06
Buyer clarity
Separate parent web product from the App listing.

MEDIUSWARE CONTRIBUTION AND DELIVERY EVIDENCE

Engineering stages behind a store-ready mobile app

01
Discovery
Users, jobs, and store constraints.

02
UX and flows
Mobile information architecture.

03
Engineering
Client app and API integration.

04
QA
Device checks and regression.

05
Store release
Listing, builds, and submit.

06
Handoff
Notes for ongoing releases.

CONTRIBUTION BOUNDARY

Mediusware contribution is framed as mobile product engineering and store delivery support. Exact team staffing by sprint should be confirmed per engagement record.

VERIFICATION AND COMPLIANCE

Confirm facts before the app is presented beyond the store page

01
Live link
Open the store or repository URL before the call.

02
Parent product
Do not confuse the App listing with the web SaaS.

03
Permissions
Explain location, camera, or biometrics only if used.

04
Privacy
Keep member or financial data claims qualified.

05
Metrics
Publish KPIs only when measured.

06
Updates
Confirm the listing still installs on current OS versions.

MEDIUSWARE

Build store-ready mobile products like Bizi App

This project shows how a live mobile listing, a clear parent-product boundary, and disciplined evidence make a stronger client demo than screenshots alone.

01
Ship a real listing
App Store or Play Store proof.

02
Keep parent separate
SaaS web vs App naming.

03
Use honest stacks
Flutter or React Native as built.

04
Bound the claims
Store facts first.

05
Design for field use
Offline and push when needed.

06
Plan releases
Versioning and store metadata.

07
Support the buyer
Walkthrough from the live link.

08
Stay governable
Privacy and permissions clarity.
