MOBILE PRODUCT (AI NATURAL LANGUAGE APP)

Quiri App: AI NLP Experience on the App Store

An App Store mobile listing for Quiri, the AI natural-language product, giving users a phone-installed path into NLP-assisted shopping and query experiences.

PRODUCT	MARKET	STATUS
Quiri (App Store listing)	Retail and Martech product users exploring NLP UX	Live on Apple App Store; paired with Quiri product work

THE STORY IN ONE MINUTE

Natural language product help, installed from the App Store

Quiri App is the iOS listing used as live mobile proof for Quiri. It sits next to Quiri's broader AI/NLP product story and is documented here from the store artifact and portfolio posture, not from unpublished model scores.

EVIDENCE BOUNDARY

Evidence is the App Store listing. Model quality benchmarks are out of scope unless separately verified.

CLASSIFICATION

Category: AI-assisted consumer NLP mobile application

Audiences: Retail product owners and AI mobile buyers

Core promise: A live iOS entry point to Quiri's NLP product

Live link: https://apps.apple.com/us/app/quiri/id6657983225

MARKET PROBLEM

Why teams need Quiri App

The problems below are read from the product shape of Quiri App and the live store or repository evidence.

WHERE THE MOBILE EXPERIENCE BREAKS

01
Query friction
Users dislike rigid menus.

02
Mobile moment
Questions happen on the phone.

03
Trust
AI answers need careful UX.

04
Brand proof
Buyers want a store link.

05
Latency feel
NLP UX must feel responsive.

06
Scope creep
Mobile should not over-claim the model.

PRODUCT PRINCIPLE

Ship a store-listed mobile client that matches the parent product's jobs, with claims limited to what the live listing can support.

THE BUSINESS CHALLENGE

Deliver Quiri App as a reliable store product

SIX PRODUCT CHALLENGES

01
Prompt UX
Clear input and results.

02
Error states
Graceful empty or weak answers.

03
Performance
Fast perceived response.

04
Privacy posture
Careful handling of queries.

05
Store narrative
Honest screenshots and copy.

06
Evidence boundary
Separate model claims from app claims.

COMMERCIAL MODEL

Mediusware delivers mobile engineering for client products, from discovery and UX through store submission and ongoing releases. Pricing depends on scope and is confirmed per engagement.

THE PLATFORM SOLUTION

A store-published mobile client for Quiri App

SIX CAPABILITIES

01
App Store listing
Public iOS presence.

02
NLP product tie-in
Quiri brand and flows.

03
Mobile client
Store-distributed build.

04
AI UX shell
Query and response patterns.

05
Demo readiness
Live link for walkthroughs.

06
Portfolio fit
Retail and Martech contexts.

LIVE ARTIFACT

https://apps.apple.com/us/app/quiri/id6657983225

WHAT THE EVIDENCE SHOWS

Counting the public proof, and the claims to keep bounded

OBSERVATIONS

Evidence is the App Store listing. Model quality benchmarks are out of scope unless separately verified. Design principle: report only store-visible or repository-visible facts unless a metric is separately verified.

Public live link	Apple App Store Quiri listing.
Stack stated	React Native mobile pattern.
Industries noted	Retail and Martech.
Delivery shape	AI NLP mobile client.

TECHNOLOGY AND ARCHITECTURE

Stack stated for Quiri App

METHODS AND TOOLS NAMED

React Native | TypeScript | Firebase | Redux | iOS distribution

CLAIM BOUNDARY

These are stated stack choices for delivery and demo mapping. They are not an exhaustive bill of materials for every private submodule.

REPORTED RESULTS AND INTENDED VALUE

What can be shown publicly today

01
Public live link
Apple App Store Quiri listing.

02
Stack stated
React Native mobile pattern.

03
Industries noted
Retail and Martech.

04
Delivery shape
AI NLP mobile client.

05
Intended value
Faster demos with a real installable client.

06
Buyer clarity
Separate parent web product from the App listing.

MEDIUSWARE CONTRIBUTION AND DELIVERY EVIDENCE

Engineering stages behind a store-ready mobile app

01
Discovery
Users, jobs, and store constraints.

02
UX and flows
Mobile information architecture.

03
Engineering
Client app and API integration.

04
QA
Device checks and regression.

05
Store release
Listing, builds, and submit.

06
Handoff
Notes for ongoing releases.

CONTRIBUTION BOUNDARY

Mediusware contribution is framed as mobile product engineering and store delivery support. Exact team staffing by sprint should be confirmed per engagement record.

VERIFICATION AND COMPLIANCE

Confirm facts before the app is presented beyond the store page

01
Live link
Open the store or repository URL before the call.

02
Parent product
Do not confuse the App listing with the web SaaS.

03
Permissions
Explain location, camera, or biometrics only if used.

04
Privacy
Keep member or financial data claims qualified.

05
Metrics
Publish KPIs only when measured.

06
Updates
Confirm the listing still installs on current OS versions.

MEDIUSWARE

Build store-ready mobile products like Quiri App

This project shows how a live mobile listing, a clear parent-product boundary, and disciplined evidence make a stronger client demo than screenshots alone.

01
Ship a real listing
App Store or Play Store proof.

02
Keep parent separate
SaaS web vs App naming.

03
Use honest stacks
Flutter or React Native as built.

04
Bound the claims
Store facts first.

05
Design for field use
Offline and push when needed.

06
Plan releases
Versioning and store metadata.

07
Support the buyer
Walkthrough from the live link.

08
Stay governable
Privacy and permissions clarity.
