MOBILE PRODUCT (EXPERIENCE / ECOMMERCE HYBRID)

Talking Statues App: Experience Commerce on Google Play

A Google Play app for Talking Statues that blends mobile experience delivery with ecommerce-capable product patterns for cultural or attraction-oriented purchases and engagement.

PRODUCT	MARKET	STATUS
Talking Statues (Play Store listing)	Attraction visitors and experience commerce buyers	Live on Google Play; Mediusware portfolio entry

THE STORY IN ONE MINUTE

A mobile experience app with ecommerce-capable delivery posture

Talking Statues App is listed once as both a mobile experience client and an ecommerce-capable store app. The Play Store page is the live proof. Tourism ROI figures are not invented for this pack.

EVIDENCE BOUNDARY

Evidence is the Play Store listing. Visitor conversion studies are not published here.

CLASSIFICATION

Category: Experience and ecommerce mobile application

Audiences: Attraction operators and experience commerce teams

Core promise: A live Android app for Talking Statues experiences and related purchases

Live link: https://play.google.com/store/apps/details?id=com.talkingstatues&hl=en

MARKET PROBLEM

Why teams need Talking Statues App

The problems below are read from the product shape of Talking Statues App and the live store or repository evidence.

WHERE THE MOBILE EXPERIENCE BREAKS

01
On-site moments
Visitors engage on phones.

02
Content access
Stories need a mobile shell.

03
Purchase path
Tickets or items may sell in-app.

04
Discovery
Play Store listing for distribution.

05
Clarity
Experience UX must be immediate.

06
Ops
Content updates need a release or CMS path.

PRODUCT PRINCIPLE

Ship a store-listed mobile client that matches the parent product's jobs, with claims limited to what the live listing can support.

THE BUSINESS CHALLENGE

Deliver Talking Statues App as a reliable store product

SIX PRODUCT CHALLENGES

01
Media UX
Audio/visual content on device.

02
Ecommerce hooks
Cart or purchase patterns when needed.

03
Offline pockets
Attraction sites vary in signal.

04
Store presentation
Screenshots that set expectations.

05
Performance
Rich media without jank.

06
Evidence care
No unverified tourism KPIs.

COMMERCIAL MODEL

Mediusware delivers mobile engineering for client products, from discovery and UX through store submission and ongoing releases. Pricing depends on scope and is confirmed per engagement.

THE PLATFORM SOLUTION

A store-published mobile client for Talking Statues App

SIX CAPABILITIES

01
Play Store listing
Public Android app.

02
Experience flows
Mobile content engagement.

03
Ecommerce posture
Purchase-capable mobile patterns.

04
Consumer UX
Visitor-friendly navigation.

05
Release path
Android distribution.

06
Demo link
Live store URL.

LIVE ARTIFACT

WHAT THE EVIDENCE SHOWS

Counting the public proof, and the claims to keep bounded

OBSERVATIONS

Evidence is the Play Store listing. Visitor conversion studies are not published here. Design principle: report only store-visible or repository-visible facts unless a metric is separately verified.

Public live link	Google Play Talking Statues listing.
Services noted	Mobile plus ecommerce child services in HR.
Stack stated	React Native mobile pattern.
Delivery shape	Experience commerce mobile app.

TECHNOLOGY AND ARCHITECTURE

Stack stated for Talking Statues App

METHODS AND TOOLS NAMED

React Native | TypeScript | Firebase | Redux | Play Store distribution

CLAIM BOUNDARY

These are stated stack choices for delivery and demo mapping. They are not an exhaustive bill of materials for every private submodule.

REPORTED RESULTS AND INTENDED VALUE

What can be shown publicly today

01
Public live link
Google Play Talking Statues listing.

02
Services noted
Mobile plus ecommerce child services in HR.

03
Stack stated
React Native mobile pattern.

04
Delivery shape
Experience commerce mobile app.

05
Intended value
Faster demos with a real installable client.

06
Buyer clarity
Separate parent web product from the App listing.

MEDIUSWARE CONTRIBUTION AND DELIVERY EVIDENCE

Engineering stages behind a store-ready mobile app

01
Discovery
Users, jobs, and store constraints.

02
UX and flows
Mobile information architecture.

03
Engineering
Client app and API integration.

04
QA
Device checks and regression.

05
Store release
Listing, builds, and submit.

06
Handoff
Notes for ongoing releases.

CONTRIBUTION BOUNDARY

Mediusware contribution is framed as mobile product engineering and store delivery support. Exact team staffing by sprint should be confirmed per engagement record.

VERIFICATION AND COMPLIANCE

Confirm facts before the app is presented beyond the store page

01
Live link
Open the store or repository URL before the call.

02
Parent product
Do not confuse the App listing with the web SaaS.

03
Permissions
Explain location, camera, or biometrics only if used.

04
Privacy
Keep member or financial data claims qualified.

05
Metrics
Publish KPIs only when measured.

06
Updates
Confirm the listing still installs on current OS versions.

MEDIUSWARE

Build store-ready mobile products like Talking Statues App

This project shows how a live mobile listing, a clear parent-product boundary, and disciplined evidence make a stronger client demo than screenshots alone.

01
Ship a real listing
App Store or Play Store proof.

02
Keep parent separate
SaaS web vs App naming.

03
Use honest stacks
Flutter or React Native as built.

04
Bound the claims
Store facts first.

05
Design for field use
Offline and push when needed.

06
Plan releases
Versioning and store metadata.

07
Support the buyer
Walkthrough from the live link.

08
Stay governable
Privacy and permissions clarity.
