A detailed case study on Capturely - Screen Recorder (id cdmeidbnhfdoccmmcdaldbjelejmdcmk), offered by Mediusware. The listing states record browser tab, window, or full screen, optional webcam overlay, drawing tools, pause/resume, local MP4 export, no server-side video processing, and optional mobile companion mode. At capture: version 2.0.4, updated 18 Apr 2026, 5.0 rating, 340KiB, privacy: will not collect or use your data. Portfolio tags: Media APIs, React, Service Workers.

PRODUCT	MARKET	STATUS
Capturely - Screen Recorder on Chrome Web Store. Offered by Mediusware.	Creators, educators, and teams needing fast local recordings from Chrome	Live on Chrome Web Store; Mediusware-offered; no account required per listing

THE STORY IN ONE MINUTE

Recording dies when the tool forces cloud upload and an account before the first clip

Capturely positions itself as privacy-first: capture tab/screen/webcam, annotate, pause, and export MP4 locally with no default upload. Mediusware is the store offerer. Portfolio delivery maps Media APIs, React, and service workers inside the Browser Extension stack.

EVIDENCE BOUNDARY

Capture modes, local MP4, no-server processing, drawing, pause/resume, companion mode, Mediusware offerer, version, and no-collect privacy come from the Chrome Web Store. Creator growth metrics are not published here.

CLASSIFICATION

Category:	Chrome MV3 local media capture extension
Audiences:	Creators, educators, support teams, and buyers needing private recording
Core promise:	Record in Chrome and download MP4 locally without a Capturely cloud account
Live link:	https://chromewebstore.google.com/detail/capturely-%E2%80%93-screen-record/cdmeidbnhfdoccmmcdaldbjelejmdcmk

MARKET PROBLEM

Screen Recording Fails When Privacy and Speed Are an Afterthought

Teams abandon recorders that upload first. Capturely's listing leads with local export.

WHERE BROWSER RECORDERS FAIL

01
Forced cloud
Uploads before download.

02
Account walls
Cannot record immediately.

03
Weak annotate
No drawing while recording.

04
No pause
Restarts waste takes.

05
Format friction
Odd containers hard to share.

06
Metric invention
Fake creator growth claims.

THE CAPTURELY LOOP

01	02	03	04	05	06
Install	**Choose**	**Record**	**Pause**	**Stop**	**Export**
Web Store	Tab/screen/cam	Optional draw	Resume	Local encode	MP4

PRODUCT PRINCIPLE

Default to local processing, and say cloud is not required unless the user chooses something else.

THE BUSINESS CHALLENGE

Ship Reliable Capture Without Building a Video SaaS Narrative

Users need tab/screen/cam and MP4. Buyers need privacy honesty and Mediusware offerer clarity.

SIX PRODUCT CHALLENGES

01
Capture targets
Tab, window, screen.

02
Webcam overlay
Optional picture-in-picture.

03
Annotations
Real-time drawing.

04
Pause/resume
Longer sessions.

05
Local MP4
No server processing.

06
Companion mode
Optional mobile mirror.

TWO AUDIENCES

CREATORS / TEAMS
Record privately
Want local MP4 from Chrome without accounts.

BUYERS
Evaluate delivery
Want a Mediusware-offered media extension listing.

COMMERCIAL MODEL

Listing emphasizes no account required. Monetization beyond free install is not asserted here. Support: tech.mediusware@gmail.com.

THE PLATFORM SOLUTION

A Mediusware Local Recorder Built on Media APIs

Store copy defines capture jobs. Micro-portfolio tech includes Media APIs, React, Service Workers, JavaScript, TypeScript, Chrome APIs, and Manifest V3.

THE CORE FLOW

01	02	03	04	05	06
Install	**Pick source**	**Record**	**Control**	**Encode**	**Download**
Web Store	Tab/screen/cam	Annotate	Pause/resume	Local	MP4

CAPABILITIES NAMED IN THE EVIDENCE

01
Tab/window/screen
Capture targets (store).

02
Webcam overlay
Optional (store).

03
Drawing tools
Real-time annotate (store).

04
Pause/resume
Named on listing.

05
Local MP4
No server processing (store).

06
Mobile companion
Optional mode (store).

FACTS AT CAPTURE

5.0	2.0.4	Mediusware	340KiB
Store rating at capture	Version	Offerer	Size

WHAT THE EVIDENCE SHOWS

Count Local Capture Proof, Separate Creator Growth Myths

The listing is concrete on local export. DAU and creator revenue are absent.

ELEMENTS COUNTED IN THE PUBLIC SOURCES

3+	1	No collect	Mediusware	2.0.4	1
Capture modes	Local export	Privacy	Offerer	Version	Demo link

OBSERVATIONS

- Mediusware offerer association is strong for delivery demos.
- No-collect privacy aligns with local-processing narrative; still verify network.
- Media APIs / service workers are portfolio-mapped.
- Do not invent install or retention metrics.

DESIGN PRINCIPLE

Record a tab with a drawn mark, pause once, then download MP4 locally.

TECHNOLOGY AND ARCHITECTURE

Extension Delivery Behind a Local Media Listing

Portfolio maps Media APIs, React, service workers, Chrome APIs, and Manifest V3 for capture tools.

ARCHITECTURE AS STATED OR IMPLIED

01
MV3 client
Recorder controls UI.

02
Media capture
Tab/screen/cam streams.

03
Annotation layer
Drawing overlays.

04
Local encode
MP4 export pipeline.

05
Service worker
Background session posture.

06
Store release
Web Store packaging.

METHODS AND TOOLS NAMED

JavaScript | TypeScript | React | Media APIs | Service Workers | Chrome APIs | Manifest V3

CLAIM BOUNDARY

Confirm codecs, max resolution, and companion mode scope before media architecture claims.

REPORTED RESULTS AND INTENDED VALUE

Intended Private Capture, Unmeasured Creator Growth

Public sources support local recording. They do not publish creator growth KPIs.

INTENDED VALUE, PER THE EVIDENCE

01
Privacy default
Local processing.

02
Fast start
No account wall named.

03
Annotate live
Drawing tools.

04
MP4 shareability
Common export format.

05
Mediusware listing
Direct offerer.

06
Creator/education fit
Named audiences.

USAGE SCENARIOS IMPLIED

- An educator records a tab with annotations and downloads MP4 for students.
- A support engineer captures a full-screen bug walkthrough locally.
- A buyer opens the Mediusware Capturely listing on a call.

CLAIM BOUNDARY

Do not publish creator DAU or retention from this pack.

MEDIUSWARE CONTRIBUTION AND DELIVERY EVIDENCE

Surfaces Behind a Mediusware Recorder Listing

Live listing and Mediusware offerer are public. Authorship needs a scope file.

SURFACES TO ATTRIBUTE

01
Recorder UI
Source pick and controls.

02
Capture pipeline
Media streams.

03
Annotations
Drawing tools.

04
Local export
MP4 download.

05
Companion mode
Optional mobile.

06
Store release
Listing packaging.

DEFENSIBLE PUBLIC PROOF

PROOF
Mediusware
Offerer
Store

PROOF
Local MP4
Export
Listing

PROOF
5.0
Rating
Store

PROOF
1
Package
cdmeidbnhfdoccmmcdaldbjelejm

CONTRIBUTION BOUNDARY

Mediusware offerer is public. Staffing mix is not on the store page.

VERIFICATION AND COMPLIANCE

Verify Local Capture Before Privacy Claims

Demos should prove no required upload for a basic recording.

PRE-PUBLICATION VERIFICATION

01
Install listing
Capturely Web Store id.

02
Record a tab
With one annotation.

03
Pause/resume
Confirm controls.

04
Download MP4
Local file appears.

05
Network check
Reconcile no-collect.

06
Authorship file
Confirm demo rights.

MEASURES WORTH PUBLISHING

- Time from install to first MP4 download
- Failed encode rate on mid-range laptops
- Crash-free sessions on 2.0.4
- Support tickets about missing audio/video tracks

GOVERNANCE PRIORITY

Publish privacy or performance claims only after device tests and written permission.

MEDIUSWARE

Ship Media Extensions That Default to Local

Capturely shows how a Mediusware Chrome listing with local MP4 and annotations beats cloud-first recorders for privacy-sensitive demos.

WHAT THE PROJECT DEMONSTRATES

01
Ship Mediusware listing
Web Store proof.

02
Local by default
MP4 export.

03
Annotate + pause
Real session controls.

04
Privacy clarity
No collect.

05
Media API posture
Portfolio tags.

06
Bound growth claims
No fake DAU.

07
Verify on device
One local clip.

08
Scope file
Authorship.
