CHROME EXTENSION (AI MEETING ASSISTANT FOR MEET & ZOOM)

Friday: AI Meeting Assistant for Google Meet and Zoom With Local Captions

A detailed case study on Friday (id cabemifhhalogbncbglcagdkeipomhpb), offered by Mediusware. The listing states an AI meeting assistant for Google Meet and Zoom web that captures live captions into a side panel, supports search/copy/download (TXT/PDF), saves meetings on device, and optionally asks AI (Gemini, OpenAI, or OpenRouter) with the user's own API key. No Friday account or Friday server. At capture: version 1.7.0, updated 28 Aug 2026, 5.0 from 2 ratings, 126KiB. Works Chrome 109+ / Chromium; not desktop Zoom app or phone browsers.

PRODUCT

Friday on Chrome Web Store. Offered by Mediusware.

MARKET

Professionals on Google Meet and Zoom web who need captions, search, and optional AI recap

STATUS

Live on Chrome Web Store; Mediusware-offered; local-first with optional BYOK AI

THE STORY IN ONE MINUTE

Meetings blur when captions disappear and notes require another SaaS login

Friday reads on-page captions into a side panel, keeps history on device, exports TXT/PDF, and only calls an AI provider when the user sends a chat with their own key. Mediusware is the offerer. Portfolio Browser Extension stack covers JS/TS, React, Chrome APIs, Manifest V3, and optional OpenAI-family integrations.

EVIDENCE BOUNDARY

Meet/Zoom web scope, local storage, BYOK AI providers, export formats, version, Mediusware offerer, and privacy handling categories come from the Chrome Web Store. Meeting productivity percentages are not published here.

CLASSIFICATION

Category: Chrome MV3 meeting assistant extension

Audiences: ICs and managers on Meet/Zoom web, and buyers evaluating private AI meeting tools

Core promise: Capture and search meeting captions locally, with optional BYOK AI only when asked

Live link: https://chromewebstore.google.com/detail/friday/cabemifhhalogbncbglcagdkeipomhpb

MARKET PROBLEM

Meeting Memory Fails When Notes Depend on Another Cloud Account

People already enable captions. Friday keeps that text searchable on device and optional AI is BYOK.

WHERE MEETING ASSISTANTS FAIL

01
SaaS account wall
Extra login for notes.

02
Cloud-first captions
Sensitive talks leave the device.

03
No search
Cannot find what was said.

04
Desktop-only Zoom
Misses web users or vice versa.

05
Opaque AI
Vendor key, unclear sends.

06
Metric invention
Fake productivity %.

THE FRIDAY MEETING LOOP

01
Join
Meet/Zoom web

02
Enable
Captions CC

03
Capture
Side panel

04
Search
During/after

05
Export
TXT/PDF

06
Ask AI
Optional BYOK

PRODUCT PRINCIPLE

Local captions by default; AI only on explicit chat with the user's key.

THE BUSINESS CHALLENGE

Stay Useful in Live Calls Without Becoming a Meeting Cloud

Users need caption capture and export. Buyers need clear Meet/Zoom web limits and BYOK AI boundaries.

SIX PRODUCT CHALLENGES

01
Caption capture
Read on-page CC text.

02
Side panel UX
Resizeable live view.

03
Local history
Save meetings on device.

04
Export
TXT and PDF.

05
BYOK AI
Gemini/OpenAI/OpenRouter.

06
Scope honesty
Web only, not desktop Zoom app.

TWO AUDIENCES

MEETING USERS
Stay relevant
Want captions, search, export, optional AI.

BUYERS
Evaluate delivery
Want Mediusware-offered local-first meeting extension.

COMMERCIAL MODEL

No Friday account/server per listing. AI uses the user's provider key when chat is sent. Other pricing is not asserted here. Support: tech.mediusware@gmail.com.

THE PLATFORM SOLUTION

A Mediusware Local-First Meeting Assistant for Meet and Zoom Web

Store copy defines capture and BYOK AI. Micro-portfolio tech includes JavaScript, TypeScript, React, Chrome APIs, Manifest V3, OpenAI API patterns, and service workers.

THE CORE FLOW

01	02	03	04	05	06
Install	**Join call**	**CC on**	**Panel**	**Export**	**Ask AI**
Web Store	Meet/Zoom web	Captions	Capture	TXT/PDF	Optional key

CAPABILITIES NAMED IN THE EVIDENCE

01
Live captions
Side panel capture (store).

02
Search/copy
During and after (store).

03
Local meetings
Saved on device (store).

04
TXT/PDF export
Named formats.

05
BYOK AI
Gemini, OpenAI, OpenRouter.

06
No Friday server
Stated architecture.

FACTS AT CAPTURE

5.0	**1.7.0**	**Mediusware**	**3**
Rating (2) at capture	Version	Offerer	AI providers named

WHAT THE EVIDENCE SHOWS

Count Local Meeting Proof, Separate Unearned Productivity Scores

The listing is concrete on local captions and BYOK AI. Productivity percentages are absent.

ELEMENTS COUNTED IN THE PUBLIC SOURCES

2 web	2	3	3	Mediusware	1.7.0
Platforms	Export formats	AI providers	Privacy types	Offerer	Version

OBSERVATIONS

- Small rating sample (2) means early social proof; do not invent popularity.
- Privacy handles authentication, personal communications, and website content. Reconcile with local-first narrative.
- Desktop Zoom app exclusion must be said on demos.
- OpenAI/Gemini tags align with BYOK listing language and portfolio.

DESIGN PRINCIPLE

Join a Meet with CC on, search a phrase, export TXT, then show Ask AI only with a test key.

TECHNOLOGY AND ARCHITECTURE

Extension Delivery Behind a Local Meeting Assistant

Portfolio maps React, Chrome APIs, Manifest V3, and optional OpenAI-family calls for AI extensions.

ARCHITECTURE AS STATED OR IMPLIED

01
MV3 client
Side panel UI.

02
Caption reader
On-page CC scraping.

03
Local storage
Meetings and chats on device.

04
Export
TXT/PDF generation.

05
BYOK AI bridge
User key over HTTPS when chatting.

06
Store release
Web Store packaging.

METHODS AND TOOLS NAMED

JavaScript | TypeScript | React | Chrome APIs | Manifest V3 | Service Workers | OpenAI API | Gemini API

CLAIM BOUNDARY

Confirm caption selectors per Meet/Zoom DOM changes and key storage before security reviews.

REPORTED RESULTS AND INTENDED VALUE

Intended Meeting Continuity, Unmeasured Time Saved

Public sources support searchable local captions. They do not publish hours-saved studies.

INTENDED VALUE, PER THE EVIDENCE

01
Live follow-along
Side panel captions.

02
After-call search
Find what was said.

03
Local default
No Friday server.

04
Optional AI
BYOK only when asked.

05
Export
TXT/PDF handoff.

06
Mediusware listing
Direct offerer.

USAGE SCENARIOS IMPLIED

- A manager enables CC in Meet, searches a decision in the panel, and exports PDF.
- A user asks Gemini with their own key for a recap using recent captions.
- A buyer opens the Mediusware Friday listing and reviews privacy boundaries.

CLAIM BOUNDARY

Do not publish meeting productivity percentages from this pack.

MEDIUSWARE CONTRIBUTION AND DELIVERY EVIDENCE

Surfaces Behind a Mediusware Meeting Assistant Listing

Live listing and Mediusware offerer are public. Authorship needs a scope file.

SURFACES TO ATTRIBUTE

01
Side panel
Caption stream UI.

02
Search/export
TXT/PDF.

03
Local history
Meetings list.

04
Ask AI
BYOK chat.

05
Settings
Keys and context limits.

06
Store release
Listing packaging.

3 providers
Listing

PROOF
1
Package
cabemifhhalogbncbglcagdkeipo

CONTRIBUTION BOUNDARY

Mediusware offerer is public. Staffing mix is not on the store page.

VERIFICATION AND COMPLIANCE

Verify Caption and BYOK Paths Before Meeting Claims

Demos need Meet or Zoom web with captions enabled.

PRE-PUBLICATION VERIFICATION

01
Install listing
cabemifhhalogbncbglcagdkeipomhpb.

02
Meet with CC
Panel captures text.

03
Search + export
TXT or PDF.

04
AI off path
Confirm no send without chat.

05
BYOK chat
One test message with user key.

06
Authorship file
Confirm demo rights.

MEASURES WORTH PUBLISHING

- Caption capture continuity across a 15-minute call
- Export success for TXT and PDF
- AI chat only fires when user sends
- Crash-free sessions on 1.7.0

GOVERNANCE PRIORITY

Publish meeting AI claims only after privacy review and written permission.

MEDIUSWARE

Ship Meeting Extensions That Stay Local Until the User Asks

Friday shows how a Mediusware Chrome listing with local captions and BYOK AI beats cloud-first meeting bots for privacy-sensitive demos.

WHAT THE PROJECT DEMONSTRATES

01
Ship Mediusware listing
Web Store proof.

02
Local captions
Side panel + history.

03
Export
TXT/PDF.

04
BYOK AI
User key only.

05
Scope honesty
Web Meet/Zoom only.

06
Bound metrics
No fake productivity %.

07
Verify on call
CC + export.

08
Scope file
Authorship.
